

## Kim Rosenfield 1/15 Task

### It Is Audible

Interestingly

when fish eggs rub against one another

they make a noise

As a general rule of thumb

<http://www.essie.com/Colors/blues/naughty-nautical.aspx>

on Tumblr

<http://www.essie.com/Colors/blues/naughty-nautical.aspx>

on Google+

to a friend

you know you have good caviar

if you put your ear

packaging

to the

and can hear the sound of the friction  
between the fish eggs

that has a similar

sound to a

cat's purr
